

Firming Plant Peptide Serum

USD \$98 • 30 ml / 1 fl oz

TARGET THE SIGNS OF AGING, FIRM & PLUMP

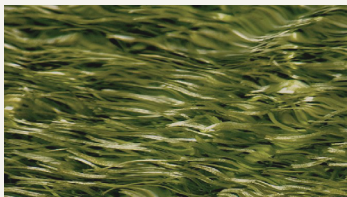

WHAT IT IS: A potent anti-aging serum with a blend of plant peptides that visibly firms, plumps, and delivers long-term moisturization. Botanical-based actives and plant stem cells provide an instant filler-like effect to smooth fine lines and wrinkles and help boost collagen for a youthful-looking complexion.

HOW TO USE: Use AM or PM daily. Apply a dime-size amount to a clean face, neck, and décolleté. Let the serum sink in, then follow with Moisture Rich Balm to lock in moisture.

GREAT FOR: Great for mature skin to help address the signs of aging.

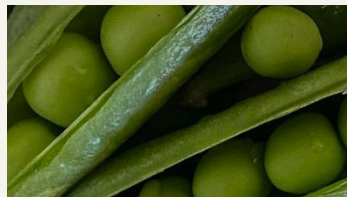

KEY INGREDIENTS

93% Natural Origin Content 

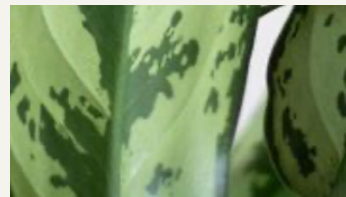

CELTIC SEA PLANKTON

Uses the building blocks of hyaluronic acid to provide an instant filler-like effect to diminish the appearance of fine lines and wrinkles.

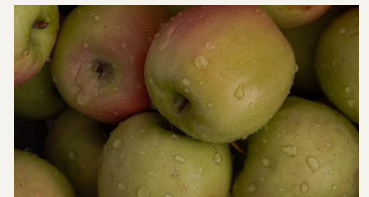

PEA PEPTIDE

Contains a complete amino acid profile to help support skin's elasticity, reduce the appearance of wrinkles, and plump skin for a smooth, radiant complexion.

TIGER PLANT

Known as the plant of longevity, it contains a stem cell signaling peptide to help reverse the signs of aging.

UPCYCLED APPLE & BARRIER RENEWAL COMPLEX

Provide long-lasting moisture benefits to help replenish the skin's barrier while zero-waste apple saccharides act as a natural humectant to draw in moisture and plump skin.
